**OUR POSITION REGARDING HOW MATTHEW F.
HALE IS BEING UNCONSTITUTIONALLY AND
THUS ILLEGALLY IMPRISONED**

FREE MATT HALE

Rev. Matt Hale is being unconstitutionally imprisoned due to the demand of special interest groups within the United States. These special interest groups did not like what he had to say about many issues surrounding our country and he was, as a result, wrongfully imprisoned by the United States Government. His unlawful incarceration should be a concern of **EVERY** United States citizen. Contact your government officials and demand a full investigation of the Department of Justice and its Unconstitutional witch hunt of Matt Hale.

They were able to achieve the long desired imprisonment of Rev. Hale by using a paid government informant and by ensuring that he not receive a fair trial. The United States government essentially [railroaded him](#). They do not use this tactic very often in order to keep its effectiveness and this technique hidden from public view.

How do they do it, you ask? Very simple. They have an informant --who is paid handsomely by

the government-- infiltrate your organization. This informant wears a wire and urges illegal criminal activities that he claims will be beneficial to the organization and he swears that they will not be committed by anyone connected to the organization (In this case, Matt Hale himself). After two plus years of this informant asking Matt Hale permission to perform these illegal acts over and over again, Rev. Hale finally disingenuously said "whatever you wanna do" and that was all the proof that the government needed. According to Matt Hale and several of his organization's top associates however, the informant was already believed to be an agent provocateur. The way the courts are demanding it though, you must say "NO" and walk away each and every time. The DOJ did not want to let this opportunity pass them by and arrested Rev. Hale weeks after the supposed crime while the actual criminal, Tony Evola, cashed his government check.

FREE MATT HALE

"Dear Friends,

Welcome to the Free Matt Hale website. As I am the subject of this endeavor and have the liberty to do so, I thought it appropriate and indeed worthwhile that I personally address you on this site bearing my name. In the main, however, I will let the various legal documents soon to appear on this site speak for themselves, for there is no better evidence of my innocence than the plain facts of my case as remarked upon by these legal documents. Let me though succinctly summarize the facts so that some if not all of the myths about my case may be quickly dispelled as I have longed to do that for many years:

1) I have never, in any respect, solicited the murder of anybody. While that is generally recognized by all objective observers of my case, it bears repeating by yours truly as it is, and has been, commonly but mistakenly held that I was "entrapped". For entrapment to exist though, the person in question must have, however, **ACTUALLY COMMITTED A CRIME** but that he was induced to do so by a government informant. Well, quite simply, I was **NOT** entrapped because I did not commit a crime -- the agent provocateur Tony Evola **TRIED** to get me to do so, but he failed. No entrapment occurred in this case, as outrageous as the government's conduct certainly was, because Evola solicited **ME** (not me him) and I simply turned him down.

2) Long before the events giving rise to my arrest on January 8, 2003 occurred, I **KNEW THAT EVOLA WAS A GOVERNMENT INFORMANT**. This will be surprising news to many of you but this is one of the reasons why this website was created, to finally enable the truth to be told. It was not remotely told at my trial due to dereliction of duty of the lawyers who represented me and for years I was physically restrained from writing you as I am doing now. So let me repeat: I knew that Evola was an FBI informant, quite specifically, at the very time that I supposedly solicited

him to murder a federal judge. Did my jury hear the evidence that proved this? No, because my "lawyers" withheld it. Since I knew that Evola was an FBI informant, I obviously, as any rational and sapient person would have to conclude, did not solicit him to commit murder or intend that he did so. The case, or alleged case against me, was built upon the premise that Evola was some kind of trusted confidant or right-hand man and the media and others have repeated that ad nauseam. In reality, Tony was an obvious phony and thus I am obviously innocent.

3) Now for the clincher, if such should be thought necessary: NEITHER EVOLA NOR I WERE EVEN TALKING ABOUT A FEDERAL JUDGE on the key date in question and thus the very foundation of the case --even more than Evola's status --is a total myth. The widely quoted exchange between Evola and I on December 5, 2002 referred to a "rat, Jew rat", not a judge and there is overwhelming evidence - -that my jury once again never heard --that this was not a judge at all but rather a lawyer who was involved in the pending trademark case litigation. Thus, not only did I not solicit Evola to murder anybody or intend that he do so, but the alleged target of the alleged solicitation forming the basis for the federal charges, and for which I have been consigned to a 40 year federal prison term, was

not a federal judge at all.

I could write more of how my jury (and the public) have been denied critical and conclusive evidence demonstrating my innocence but I believe that I have already revealed enough to shock the conscience of any moral and ethical person. The good and hopeful news is that I have pending a petition for habeas corpus on the basis that my lawyers at trial, by indeed withholding evidence from the jury proving my innocence, violated my Sixth Amendment right to effective assistance of counsel. Many, if not all, of the upcoming legal documents to be posted on this site will be from this pending case for habeas corpus, so I invite you to review them. Please stay tuned, my friends, for the imminent updates to this site that I have indicated. Please also spread the news of this cause of justice itself. My family and I deeply appreciate your support in this ordeal of several lifetimes that we have suffered. We remain unbowed.

Yours truly,

- Rev. Matt Hale"
